(ii) One dollar ($2.00), plus

2. An amount, reasonably determined by OPS, reflecting the cost of electric energy, if any, used by the additional facilities.

b. The customer may elect to pay the costs of additional facilities, other than energy-related costs, in a single lump-sum payment at the time of their installation, instead of paying a monthly rental charge related to those facilities pursuant to subsection a. above.

(4) Taxes. The monthly bills to the customer hereunder shall, in addition to the other amounts set forth herein, include applicable taxes, payments in lieu of taxes, fees, assessments, and surcharges imposed by any governmental authority and governmental fees applicable to service to the customer imposed by any governmental authority. For installations having three (3) or more poles, such a contract shall be required, and such contract shall have a minimum term of three (3) years and shall continue in effect thereafter until terminated by the customer or by OPS with at least thirty (30) days' prior written notice. OPS may, at its option, require an advance lump-sum payment by the customer equal to one-half (½) of the total estimated charges over the term of the customer's contract. The director of OPS, or his designee, is authorized to execute such contracts on behalf of the city.

(2) Service hereunder is subject to such additional terms and conditions of service as the city may from time to time duly adopt and set forth in this Code.

(3) This rate schedule may be amended or superseded in whole or in part in accordance with this Code.

(4) This rate schedule shall be effective for bills rendered on and after January 1, 2016 and supersedes all previous rates schedules previously applicable service to the customer.

Sec. 28-59. Power Cost Adjustment Clause, Rate Rider PCA-2016

Attachment: Ordinance amending DIV 3 ART 2 CHAP 28 112015 (129-15-ORD : Electric Rates and Charges - Second Reading.)

(a) Applicability- This Power Cost Adjustment (PCA) is applicable to and becomes a part of each retail rate, as defined in each rate schedule, of the Opelika Power Services (OPS) that so specify.

(b) General-

(1) The PCA reflects the increases/decreases in the cost of wholesale power purchased from OPS's different wholesale power sources. The cost of wholesale power represents a significant portion of the total costs to provide energy to its customers. It is critical that OPS makes sure that it recovers all of its wholesale power costs in its retail sales.

(2) Each monthly customer bill under its individual rate schedule, that is defined and subject to the PCA Rate Rider, will be increased/decreased by an amount equal to the result of multiplying the kWh of energy used by the customer by the then-currently applicable PCA determined in the manner set forth herein.

(c) Determination of PCA -

(1) The PCA hereunder shall be determined and applied monthly using a rolling three-month average. The PCA factor for each month shall be calculated in dollars per kWh.

(2) The PCA factor for each month, before adjusting for corrections to reflect actual costs and sales, shall be determined and calculated as follows:

PCA= PC/TE minus (-) Base

Where:

PCA = Power Cost Adjustment factor to be applied to the retail kWh sales to which the PCA-2016 is applicable. It shall be computed to the nearest one-thousandth of a mill per kWh.

PC = Total power costs in dollars from all power supply sources for the preceding three-months. This can include any known and measurable increases in costs of power that AMEA reflects in its estimated power costs to OPS.

TE = Total energy purchased, measured in kWh, for the preceding three-months from all power supply sources. This total energy will be calculated for the same three-months on which the "PC" the total costs of energy is being calculated.

BASE = Base value per kWh that is included in the regular rate tariffs. As last established by the City the base is $0.0588 per kWh. It can be changed and set by the City.

(3) The PCA factor for each month determined to the foregoing subsection (2) shall be appropriately adjusted, upward or downward, to allow for differences between the actual power costs and sales. Estimates can change and should be accounted for accordingly.

Sec. 28-60. - Rate stabilization/equalization tariff (RSE Rider).

(a) Applicability. This rate stabilization/equalization tariff (RSE rider) is applicable to and becomes a part of each of the electric retail rate schedules of the city. This tariff shall be added to the power cost adjustment rate rider as calculated in section 28-59.

(b) General. It is the purpose of this tariff to enable Opelika Power Services (OPS) to lessen the impact, frequency and size of retail rate changes by allowing the city council, who has the authority to regulate an set retail rates for OPS, to adjust its charges more readily in order to meet the annual revenue requirements of OPS and to adjust for fluctuations in annual energy sales volumes. This rate rider is intended to strengthen the credit value and financial status of OPS by allowing it to meet the annual revenue requirements of the system and meet its annual obligation to the city for the opportunity to serve as the utility provider within the territorial limits set for the city.

Attachment: Ordinance amending DIV 3 ART 2 CHAP 28 112015 (129-15-ORD : Electric Rates and Charges - Second Reading.)

By using this "RSE rider" the rates/charges are adjusted to assure that the electric revenues of OPS will always remain adequate to meet the annual revenue requirements of providing electricity to its customers. These annual revenue requirements include operations and maintenance costs, energy and fuel costs, taxes, debt-service costs, payment in lieu of taxes and the annual funds necessary to fund capital costs that are not funded by additional debt.

By enacting this rate rider, the charges for energy are adjusted (with RSE rider) when and if revenue projections for the upcoming year reflect that the designated revenues from energy sales are not going to be adequate to fund the annual revenue requirements of OPS. Once the rider is set, it will remain in effect for the subsequent three (3) month period, at which time, updated projections for revenue and the need for funding to meet annual revenue requirements will be set by the mayor, controller and director of OPS (collectively the "management committee"). The management committee will be responsible for developing and providing updated revenue projections and the necessary costs of the system needed to meet its annual requirements funding. The management committee shall monitor and review monthly financial statements, balance sheets, statements of income, details concerning revenues and energy sold by customer class, O&M expenses, expenses by functions (e.g. transmission and distribution, administrative and customer service) in order to project revenues and expenditures. Energy demand forecasts shall be based on ten (10) year historic data and the management committee may rely upon forecast models developed by the state municipal electric authority. This rate rider will consist of two components:

Power Cost Adjustment Rider (currently in effect)
Rate adjustment needed to fund revenue requirements
Total "RSE" Rider

(c) Determination of tariff. The rate rider adjustment will be calculated by first determining the projected revenue shortfall (PRS). This calculation shall be derived (annual revenue requirements minus the projected revenue from energy sales). The PRS will then be divided by the anticipated and normalized volume of energy (kWh) projected to be sold by OPS for the coming year. This amount of charge shall be rounded to the nearest mill ($0.001) per kWh of energy sold. The monthly customer energy usage (kWh) will be charged this rate rider adjustment as an additional charge to the base retail rates as last approved by the city council. This rate rider adjustment will remain in effect for the following three (3) month period, at which time, the management committee will adjust the RSE rider (if necessary). The city council shall annually review as part of the budget process all rate rider adjustments made by the management committee during the preceding fiscal year and shall review the operating conditions of OPS. This example illustrates how the RSE tariff is calculated:

OPELIKA POWER SERVICES 2015 BUDGET OPS	
Revenue Requirements:	
Annual Operation and Maintenance	$7,720,588
Annual Power Costs	24,635,000
Annual Debt-Service	1,459,090

Attachment: Ordinance amending DIV 3 ART 2 CHAP 28 112015 (129-15-ORD : Electric Rates and Charges - Second Reading.)

Total RSE Adjustment Rider for 2015	$.0101/kWh

(d) Other terms and conditions. This "RSE rider" tariff shall be effective for bills rendered on or after October 1, 2014. Adjustments shall be determined and applied quarterly (October—December; January—March; April—June and July—September). At the end of each fiscal year (9/30) the management of OPS will determine if any (over-recovery) from the RSE rider tariff has occurred for the current year. Any additional recovery of revenue will be used to fund a rate stabilization reserve for OPS. This rate stabilization reserve shall be set aside until it has a balance of not more than seven (7) percent of the annual revenue requirement for OPS. This rate stabilization fund reserve shall not exceed two million five hundred thousand dollars ($2,500,000.00) and be encumbered to use for keeping retail rates stable. Once fully funded, the purpose of the rate stabilization reserve will be used to help absorb future retail rate increases. The management committee will decide at what level of this reserve account is needed in order to keep retail rates stable. Should any of these funds be used, the rate stabilization reserve will be refunded back to its maximum level by using the "RSE rider" in future periods.

Section 2. **Effective Date of Adjusted Rates and Charges.** The adjusted rates and charges established in Division 3 above shall become effective for all monthly customer bills rendered after January 1, 2016 beginning with the January 2016 billing cycles.

Section 3. **Repealer Clause.** All former ordinances or parts thereof conflicting or inconsistent with the provisions of this Ordinance or Division 3 hereby adopted are repealed.

Section 4. **Severability.** If any section, clause, provision or portion of this Ordinance shall be held to be invalid or unconstitutional by any Court of any competent jurisdiction, said holding shall not affect any other section, clause, provision or portion of this Ordinance which is not in or of itself invalid or unconstitutional.

Section 5. **Construction.** If any section, paragraph, sentence or word of this Ordinance or the division hereby adopted be declared for any reason to be invalid, it is the intent of the City Council that it would have passed all other provisions of this Ordinance and the division hereby adopted independent of such portion that may be declared invalid.

Section 6. **Effective Date.** This Ordinance and the division hereby adopted shall take effect and be enforced immediately upon its adoption and publication as required by law with new rates and charges to be applied to monthly customer bills rendered after January 1, 2016.

Section 7. **Publication.** The City Clerk of the City of Opelika is hereby authorized and directed to cause a copy of this Ordinance to be published one (1) time in a newspaper of general circulation in the City of Opelika, Alabama.

Electric, refuse, telecom deposits may be required according to the customer's credit rating. Deposits are not billable. When service is terminated, deposits may be applied by OPS against any unpaid bills of the customer. If any balance remains after such application is made, said balance shall be refunded to the customer. OPS may require a separate deposit for each customer account. Deposits remain on file until services are disconnected or final billed or the deposit is refunded to the customer. Deposit amounts are as follows:

A thirty dollar ($30.00) redemption fee will be assessed. If the check is not redeemed, the electrical service will be scheduled for disconnection and a fifty dollar ($50.00) non-payment fee will be assessed. Once an account has been scheduled for disconnection, the check, all fees and all outstanding account balances must be paid with cash in full. After two (2) returned

checks for insufficient funds in a twelve (12) month period, accounts will be placed on a "cash only" status. All other returned checks (closed account, stop payment, etc.) are placed on "cash only" immediately. If a customer is placed on "cash only" status, he/she is required to pay with cash or money order for a period of two (2) years. At the expiration of two (2) years, checks will again be taken on the account. However, if a check is ever returned again after the account has been re-activated to accept checks, the account will be placed on "cash only" basis permanently. Checks must be redeemed by cash payment at OPS' customer service center located at 600 Fox Run Parkway. Night deposit and mail payments will not be accepted for returned check redemption. Accounts reflecting a returned check are subject to review. An increase in deposit may be required. Service will be terminated immediately, without notification, if a deposit payment is returned unpaid by the customer's bank or if an account payment is returned on a closed bank account.

(c) Returned bank drafts. Any returned bank drafts will be treated the same as a returned check. There will be a thirty dollar ($30.00) redemption fee for each return draft. Drafts will not be re-submitted and must be redeemed by cash payment at the customer service center. After two (2) return drafts, the account will be removed from bank draft and placed on a "cash only" status and the above stated rules apply. To remove an account from bank draft, the customer may call OPS' customer service center at 334-705-5170. All pending bank drafts must have cleared the customer's bank in order to be removed from bank draft. Pending bank drafts cannot be changed or stopped.

Sec. 28-408. - Point of delivery.

The point of delivery of service to a customer's premise is designated by OPS. All wiring and equipment beyond this point of delivery (except by special written agreement) shall be installed, owned, and maintained by the customer at no expense to OPS with the exception of the meter, the optical network terminal and the television set top boxes. Customer shall provide adequate right-of-way, as determined by OPS, for extension of service from OPS' existing facilities to the point of delivery. OPS shall not be liable for accidents or damages that occur on customer's equipment or facilities located beyond delivery point.

Sec. 28-409. - Customer's wiring standards.

All customer wiring must conform to governmental requirements and accepted modern standards, as exemplified by the requirements of the national electrical safety code, the national electric code, and other applicable codes and standards.

Sec. 28-410. - Electric customer premise inspections.

OPS shall have the right, but shall not be obligated, to inspect any installation before electricity is introduced, or at any later time. OPS reserves the right to reject any wiring, or appliances not in accordance with OPS' standards. Such inspection or failure to inspect or reject shall not render OPS liable or responsible for any loss or damage resulting from defects in the installation, wiring or appliances, or from violating OPS' rules, or from accidents, which may occur upon customer's premises.

Sec. 28-411 - Underground service lines.

Customers desiring underground service lines from OPS' overhead system will be required to bear the excess cost associated with delivery of service. Conditions, specifications, and terms for such construction will be furnished by OPS upon request.

Sec. 28-412 - Customer's responsibility for OPS' property.

All meter, service connections, and other equipment furnished by OPS shall be, and remain, the property of OPS. Customer shall provide a space for and protect the property of OPS on customer's premises. In the event of loss or damage to OPS' property, the customer will be responsible for the costs of necessary repairs and/or replacement.

Sec. 28-413. - Right of access.

OPS' identified employees shall have safe access to customer's premises at all reasonable times for the purpose of reading meters, testing, repairing, removing, exchanging, or inspecting any or all equipment and facilities belonging to OPS. OPS may, at its discretion, utilize or upgrade existing facilities on the customer's premise for the additional purpose of serving other properties.

Sec. 28-414. - Billing.

Bills will be rendered monthly and shall be paid by the due date or delinquent date specified on the bill. Due dates shall be established at such periods after billing dates as are specified by OPS. The due date shall not be earlier than ten (10) days after the billing date. Due dates cannot be changed. Bills paid after the due date specified on the bill shall be subject to an additional late charge of the greater of five dollars ($5.00) or five (5) percent of the bill amount. Delinquent accounts are subject to review and may result in the requirement of additional deposit. Failure to receive a bill due to mail delivery or other reasons will not release customer from payment obligation. Should the due date of a bill fall on a Saturday, Sunday, or holiday, the next business day following the due date shall be held as the due date for delivery of payment at OPS' main office or authorized collection agency. Customer shall be obligated for payment of expenses associated with mailing the notice of termination of service, which amounts shall be specified on the notice. Bills shall be paid in lawful United States currency or coin or other acceptable form of payment such as credit card. Customer shall also be obligated to pay OPS an amount established by OPS for expenses incurred by OPS in the processing of checks improperly drawn, not acceptable for processing using normal commercial banking practices, or returned to OPS unpaid by customer's bank.

1) Electric budget billing - OPS offers "budget billing." The system calculates a monthly budget amount for electricity, which is based on the past twelve (12) month's consumption/charge history. The total monthly bill amount will vary slightly each month, as tax and fuel cost are not included in the calculation. Budget bills are re-calculated each December. Budget amounts may increase or decrease based on the customer's consumption for the past twelve (12) months. If an account is terminated from budget billing, deferred balances will be due and payable at that time. Accounts

are subject to review prior to being set up for budget billing as certain criteria may apply.

2) Minimum bills - OPS may not disconnect electrical service to any premise for nonpayment of a delinquent bill that is ten dollars ($10.00) or less. Furthermore, a delinquent penalty shall not be added to a delinquent bill unless the amount of the account exceeds ten dollars ($10.00)

The director or his designee shall have the right to extend the time of payment of any account in the event of undue hardship. It is the intention of this section that the director shall grant an extension only to overcome some exceptional difficulty that prevents the customer from paying his/her bill by the due date or to avoid a situation that threatens the life or safety of the occupants of any premises served by OPS. All requests for an extension must be submitted to the director prior to the disconnect date.

Sec. 28-415. - Discontinuance of service by OPS for non-payment.

(a) At any time after a customer's account has become delinquent, OPS shall give to the customer at least five (5) days' written notice of its intention to discontinue service of his/her account. After the lapse of period specified in the written notice, if the account has not been paid in full, OPS, notwithstanding any deposit referred to in section 28-406, may then discontinue service without further notice subject to the following specific provisions:

(1) The customer shall have the right of paying such delinquent account, which shall include any subsequent bill for service which has become delinquent, at any time prior to the actual disconnection of his/her service.

(2) Payment by the customer, as set out in subsection (1), at OPS shall not affect OPS' right during the day payment is received to disconnect service for non-payment, if such payment is unknown to employee disconnecting such service.

(3) The customer making payment in accordance with subsection (2) will not, in case his/her service is disconnected following payment the same day, be required to pay any reconnection charge. A reconnection charge will apply if OPS has certain knowledge that payment was made following disconnect.

(4) No service shall be cutoff for non-payment after 3:30 p.m. on any date immediately preceding a day or days when OPS' business office will be closed.

(5) No residential electric service shall be disconnected for non-payment when the temperature at that location is forecasted to be 32° Fahrenheit or below for that calendar day. The controlling forecasted temperature for a particular location shall be the temperature forecasted by the national weather service for that location on the calendar day in question.

(b) The notice required in subsection (a) shall have a heading, in bold letters, of "disconnect notice", "termination notice", "final notice" or "cutoff notice". Such notice shall also state the telephone number and address of OPS where the customer may make inquiry about the written notice or any dispute concerning the notice. OPS shall delegate to at least one

employee in its customer service office the authority to change any service billing that is in error.

(c) OPS shall delegate to at least one employee the power to extend deadline for payment, to enter into agreements to receive the amount of the bill and installments, and to correct errors in bills. This person shall be reasonably available to receive appropriate complaints or inquiries.

(d) Whenever service is disconnected for non-payment and the customer requests that service be restored, except as provided in subsection (a)(3), a reconnection fee in the amount of fifty dollars ($50.00) for each respective service shall be added to the customer's delinquent account and shall become due and payable as part of the account for service rendered and shall be paid before service is restored along with all of the amounts owing on the customer's account which were specifically referred to in the delinquent notice, together with all amounts owing on the customer's account which has subsequently become delinquent.

(e) Notice of OPS' intention to discontinue service as required in subsection (a) shall be considered to be given to the customer when a copy of such notice is left with such customer, left at the premises where service is rendered, or posted in the United States mail addressed to the customer's last known post office address. If the notice is posted in the United States mail, it shall be delivered to the post office at least five (5) calendar days before service is to be disconnected.

(f) OPS may decline to serve an applicant or disconnect a customer who is indebted to OPS for services at a former location or at the present location of the applicant or customer or where such indebtedness was incurred by a member of the applicant's or customer's household, either under the name of the applicant or customer, or another name. Provided, however, applicant shall be served or customer's service shall be continued upon complying with the deposit required in Section 28-406 and in addition thereto making a special deposit in an amount equal to the net balance in dispute. Upon settlement of the disputed account, the balance, if any, due to the applicant or customer or a member of the applicant's or customer's household shall be promptly repaid.

(g) Life Support. The customer is responsible for notifying OPS, in writing, with letter from the attending physician, if a life-support system is present in the residence to avoid disconnection of service in the event of nonpayment.

Sec. 28-416. - Discontinuance or suspension of service for reasons other than the non-payment of service bill.

Service may be refused or discontinued for any of the reasons listed below. Unless otherwise stated the customer shall be allowed a reasonable time in which to comply with the provisions of this section before service is discontinued. Service may be discontinued or suspended for the following reasons:

(1) Without notice in the event of a condition on the customer's premises determined by OPS to be hazardous.

(2) Without notice in the event of customer use of equipment in such a manner as to adversely affect OPS' equipment or OPS' service to others.

(3) Without notice in the event of tampering with the equipment furnished and owned by OPS.

(4) Without notice in the event of unauthorized use.

(5) For failure of the customer to permit OPS reasonable access to its equipment for inspection, securing a meter reading, etc.

(6) For violation of and/or non-compliance with OPS' rules and regulations.

(7) For failure of the customer to fulfill his/her contractual obligations for service.

In the event service is disconnected due to a hazardous condition through no fault of the customer, the reconnect charge will not apply.

Sec. 28-417. - Connect, reconnect, and disconnect services and charges.

OPS has established and will collect standard charges to cover the reasonable average cost, including administration of connecting service, reconnecting service, or disconnecting service. Higher charges may be established and collected when connections and/or reconnections are performed after normal office hours, or when special circumstances warrant. When connecting service, a connection fee of forty dollars ($40.00) will be assessed and is non-refundable. A request for transfer of service must be made in person at OPS customer service center, located at 600 Fox Run Parkway. Proof of identification is required. All previous account balances must be paid in full prior to transferring service. Requirements to update the customer's electric and/or refuse deposit may exist. A twenty -five dollar ($25.00) fee is required for electric and refuse service transfer. This fee is not billable and is non-refundable.

Request for service disconnection may be initiated by calling OPS' customer service center at 334-705-5170. Information verification is required. Deposits will be applied to any outstanding account balance. Statements will be mailed approximately seven (7) to ten (10) days after termination of service. Refund checks are mailed independently of statements. A service call fee of eighty dollars ($80.00) will be assessed for problems beyond OPS' control and not within its responsibilities or if the service call was unwarranted in the judgment of OPS. OPS does not reconnect service after hours except in emergency situations. If service is reconnected after 4:30 p.m., or on a Saturday, Sunday or legal holiday, an after hour service charge of one hundred twenty dollars ($120.00) will be required. Accounts will be scheduled for disconnection of service five (5) days after the delinquent date. A fifty dollar ($50.00) non-payment (delinquent) fee will be assessed at that time. Accounts may be assessed a non-payment fee without being disconnected. The disconnect fee is considered part of the account balance and must be paid to avoid disconnection or paid prior to reconnection. Accounts scheduled for disconnection are subject to review; a deposit increase may be required.

Sec. 28-418. - Administrative hearing prior to termination of service.

At any time prior to 4:30 p.m. on the day preceding the disconnect date, any customer may request in writing an administrative hearing before the director or his designee. No hearing shall be necessary if the customer does not request a hearing in writing. Upon such request, the director or his designee shall, as soon as practicable, fix a day and time for the administrative hearing. In any event, all disputes shall be heard by the director or his designee before the customer's service is disconnected. The hearing shall offer the customer reasonable opportunity to be heard on any dispute concerning the amount of his/her bill or any other matter relating to the termination of the customer's service. The customer may appear at the hearing in person or through a designated representative. The final decision of the director or his designee shall be made in writing and a copy of the decision shall be delivered to the customer either personally or by certified mail, postage prepaid, return receipt requested. If the director or his designee's decision shall be to terminate the customer's service, the date of termination shall be stated therein. All such decisions shall be final and binding upon the parties subject, however, to such remedies as any aggrieved party might have in law or in equity.

Sec. 28-419. - Termination of contract by customer.

Customers who have fulfilled their contract terms and wish to discontinue service must give at least three (3) days written notice to that effect, unless the customer's contract specifies otherwise. A Customer's notice to discontinue service prior to expiration of the customer's contract term will not relieve customer from any minimum or guaranteed payment under any contract or rate schedule.

Sec. 28-420. - Service charges for temporary service.

Customers requiring temporary electric service may be required by OPS to pay all costs incurred in supplying, removing, connecting, and disconnecting service. This rule applies to circuses, carnivals, fairs, temporary construction, mobile homes not on permanent foundations, and like events. A minimum charge of two hundred dollars ($200.00) shall be paid prior to connection of temporary electric service. This service charge shall be made in addition to charges for consumption of electricity. Charges will be calculated by the follow formulas:

Cost of overhead temporary service installation (includes up to 50 feet of additional overhead service conductor) (uses existing transformer and pole)	$200.00
Cost of underground temporary service installation (includes up to 5 feet of underground service conductor) (uses existing transformer or secondary pullbox)	$200.00
Cost of additional overhead service conductor, per foot	$2.00
Cost of additional underground service conductor, per foot	$7.50
Cost of lift poles set by OLP, each	$200.00
Cost of installation of transformers or additional facilities calculated per job	

This installation will be calculated by the following formula:	
100% of labor, overhead, and equipment to install	
50% of above to remove	
50% of material used	
Temporary service deposit (refundable)	$150.00

Sec. 28-421. - Irregular service.

It is recognized by the parties that the availability of power to a customer may be interrupted or curtailed from time to time because of an "act of God", acts by agents or employees of OPS constituting negligence, or otherwise. Because the customer is in the best position to provide and install special wiring, alternate supplies, or special devices to protect customer facilities and equipment, the customer assumes all risk of loss, injury or damage resulting from such interruptions or curtailments. OPS will use reasonable diligence to provide a regular and uninterrupted supply of electricity and/or telecom services, but shall not be liable for any loss, injury, or property damage resulting from failure to supply electricity and/or telecom services, interruption, delay in restoration, mechanical failure, single-phasing, voltage irregularity, fire, labor difficulties, riot, explosion, breakdown, external forces, flood, acts of God, or the public enemy.

OPS shall not be liable for any damage where customer's wiring does not conform to applicable code or law. OPS shall not be liable for any damages that may result to customer or any other person, firm or corporation by reason of OPS' implementation of any emergency load curtailment plan in effect between OPS and its sources of supply for electric power, including, without limitation, the state municipal electric authority.

Sec. 28-422. - Power quality degradation caused by customer.

Electric service must not be used in such a manner as to cause unusual fluctuations or disturbances to OPS' system or to the electric service provided by OPS. OPS may require the customer, at his/her own expense, to install suitable apparatus which will reasonably limit such fluctuations or disturbances.

Sec. 28-423. - Additional load.

The service connection, transformers, meters, and equipment supplied by OPS for each customer have definite capacity, and no addition to the equipment or load connected thereto will be allowed except by consent of OPS. Failure to give notice of additions or changes in load, and to obtain OPS' consent for same, shall render the customer liable for any damage to any of OPS' lines or equipment or interruption of electric service provided by OPS caused by the additional or changed installation.

Sec. 28-424. - Standby and resale service.

All purchased electric service (other than emergency or standby service) used on the premises of customer shall be supplied exclusively by OPS and customer shall not directly or indirectly, sell, sublet, assign, or otherwise dispose of the electric service or any part thereof.

Sec. 28-425. - Single point delivery.

The published rates for each class of service are based upon the supply of service to the entire premises through a single delivery and metering point, and at a single voltage. Separate supply for the same customer at other points of consumption, or at a different voltage, shall be separately metered and billed.

Sec. 28-426. - Notice of trouble.

The customer shall notify OPS immediately should the service be unsatisfactory for any reason, or should there be any defects, trouble, or accidents affecting the supply of electricity. Such notices, if verbal, shall be confirmed in writing.

Sec. 28-427. - Non-standard service.

The customer shall be responsible for the additional cost compared to standard service installations, of any special installation necessary to meet customer's specific requirements for service.

Sec. 28-428. - Meter tests.

OPS will from time to time make tests or inspections of its meters and billing records and will make special tests or inspections of its meters and billing records at the request of a customer. If a test or inspection shows that the customer's bill is accurate within two (2) percent, no adjustment will be made in the customer's bill, and if the test or inspection was requested by the customer, a testing charge in the amount of fifty dollars ($50.00) shall be charged to the customer. If a test or inspection shows that the customer's bill is more than two (2) percent high or low, OPS will adjust the customer's bill and the cost of any meter test requested by the customer will be borne by OPS. OPS will not collect from or reimburse the customer any undercharge or overcharge applicable to periods more than twelve (12) months prior to the date of the test or inspection.

Sec. 28-429. - Filing and posting.

A copy of these rules and regulations, together with a copy of OPS' residential fiber optic services rate card shall be kept open to inspection at the offices of OPS.

Sec. 28-430. - Scope.

This schedule of rules and regulations, as amended from time to time, is a part of all contracts for electric and telecommunications service from OPS and applies to all service received from OPS, whether the service is based upon contract, agreement, signed application, oral application, telephone conversation, or otherwise. OPS' obligation to provide electric service shall be subject to all limitations contained in the contracts under which OPS buys electric power

from the state municipal electric authority or otherwise provided by applicable laws, rules, or regulations.

Sec. 28-431. - Revisions.

These rules and regulations may be revised, amended, supplemented, or otherwise changed from time to time. Such changes, when effective, shall have the same force as the present rules and regulations.

Sec. 28-432. - Conflict.

In case of conflict between any provisions of any rate schedule and the rules and regulations, the rate schedule shall apply.

Sec. 28-433. - Shortage of electricity.

In the event of an emergency or other condition causing a shortage in the amount of electricity for OPS to meet the demand on its system, OPS may, by an allocation method deemed equitable by OPS or pursuant to any emergency load curtailment plan in effect between OPS and its sources of supply for electric power, fix the amount of electricity to be made available for use by customer and/or may otherwise restrict the time during which customer may make use of electricity and the uses which customer may make of electricity. If such options become necessary. Customer may request a variance because of unusual circumstances, including matters adversely affecting the public health, safety and welfare. If customer fails to comply with such allocation or restriction, OPS may take such remedial actions as it deems appropriate under the circumstances including temporarily disconnecting electric service and charging additional amounts because of the excess use of electricity. The provisions of the section entitled "irregular service" of these rules and regulations are applicable to any such allocation or restriction.

Sec. 28-434. - Information to customers.

OPS will make information about rates and service practice policies available upon application for service and at any other time upon written or telephoned request. OPS, on written request from a customer, will provide a statement of monthly consumption of that customer for the prior twelve (12) months, if the information is reasonably ascertainable. OPS may establish a reasonable charge for this statement. OPS may utilize news media or other appropriate techniques to inform customers about rates and service policies.

Sec. 28-435. - Bill proration.

Bills rendered for other than the regular billing period will be prorated based upon OPS' standard bill proration policy then in effect.

Sec. 28-436. - Customer and smart grid data.

Upon request, using procedures established by OPS, OPS will make available to customers their available energy consumption data. OPS will not provide to other parties any customer's individually identifiable energy consumption data or other individually identifiable customer data collected by OPS without the customer's authorization, using authorization procedures

established by OPS. Smart grid data will be utilized only by OPS and parties authorized by OPS in order to enhance system security, reliability, and improve system efficiency and will not be provided to any other parties except with OPS' approval and per the smart grid bill of rights as approved by the city council. Nothing in this paragraph limits the state municipal electric authority's rights as provided under the wholesale power contract.

The principal of and interest on the Warrants shall be payable in lawful money of the United States at par and without discount, exchange, deduction or charge therefor.

(c) Book-Entry System

(i) The Warrants shall initially be issued pursuant to a Book-Entry System administered by the Securities Depository with no physical distribution of any Warrant to any person. One Warrant for each maturity of such series will be issued, registered in the name of the Securities Depository Nominee, and immobilized in the custody of the Securities Depository. Beneficial ownership interests in Warrants held by the Securities Depository may be purchased by or through Direct Participants. The holders of these beneficial ownership interests in such Warrants are referred to as the "Beneficial Owners." The Beneficial Owners will not receive certificated warrants representing their beneficial ownership interests. Ownership of the interests in Warrants in Authorized Denominations will be evidenced on the records of the Securities Depository and the Direct Participants and Indirect Participants pursuant to rules and procedures established by the Securities Depository. During a period in which the Book-Entry System is in effect for the Warrants, the Issuer and the Paying Agent shall treat the Securities Depository or the Securities Depository Nominee as the only registered owner of such Warrants for all purposes under this Ordinance, including, without limitation, receipt of all principal of, premium (if any) and interest on the Warrants, receipt of notices, voting, and requesting or directing the Paying Agent or Issuer to take or not to take, or consenting to, certain actions under this Ordinance. In the event the Securities Depository or the Securities Depository Nominee assigns its rights to consent or vote under the Ordinance to any Direct Participant or Indirect Participant, the Issuer and the Paying Agent shall treat such assignee or assignees as the only registered owner or owners of the Warrants of such series for the purpose of exercising such rights so assigned.

(ii) During a period in which the Book-Entry System is in effect for the Warrants, payments of principal and interest, with respect to such Warrants will be paid by the Paying Agent directly to the Securities Depository, or the Securities Depository Nominee, as Holder, and as provided in the Letter of Representations; provided, that payment of the principal of such Warrants due at final maturity of such Warrants shall be made only upon surrender thereof at the designated office of the Paying Agent. The Securities Depository and the Direct Participants and the Indirect Participants shall be responsible for the disbursement of such payments to the Beneficial Owners. All such payments to the Securities Depository or the Securities Depository Nominee,

Attachment: CM 12-15-15, Ordinance-Minutes, GO Warrants Series 2015. (131-15-ORD : Issue of GO Warrants, Series 2015. - First Reading)

as Holder, of principal of, and interest on such Warrants on behalf of the Issuer or the Paying Agent shall be valid and effectual to satisfy and discharge the liability of the Issuer and the Paying Agent to the extent of the amounts so paid, and the Issuer and the Paying Agent shall not be responsible or liable for payment to any Beneficial Owner by the Securities Depository or by any Direct Participant or by any Indirect Participant, or for sending transaction statements or for maintaining, supervising or reviewing records maintained by the Securities Depository or Direct Participants or Indirect Direct Participants.

(iii) Transfers of ownership interests in the Warrants by the Beneficial Owners thereof, and conveyance of notices and other communications by the Securities Depository to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners of the Warrants, will be governed by arrangements among the Securities Depository, Direct Participants, Indirect Participants and the Beneficial Owners, subject to any statutory and regulatory requirements as may be in effect from time to time. For every transfer and exchange of beneficial ownership in such Warrants, the Beneficial Owners may be charged a sum sufficient to cover any tax, fee or other governmental charge that may be imposed in relation thereto.

(iv) Redemption notices respecting Warrants held by the Securities Depository shall be sent to the Securities Depository Nominee by the Paying Agent.

(v) In the event that the Securities Depository ceases to act as the securities depository for the Warrants, the Issuer shall discontinue the Book-Entry System for such Warrants. If the Issuer fails to appoint another qualified securities depository to replace the then acting Securities Depository, the Issuer will cause the Paying Agent to authenticate and deliver fully registered certificated Warrants to each Beneficial Owner in evidence of the ownership interests thereof. The Securities Depository shall provide a list of Warrantholders with addresses to the Paying Agent. If the Book-Entry System is discontinued for the Warrants, payments to, and transfers of such Warrants by the Beneficial Owners shall be governed by the provisions set forth in this Ordinance with respect thereto.

(vi) The Issuer may enter into a custody agreement with any bank or trust company serving as Paying Agent (which may be the Paying Agent serving in the capacity of Paying Agent) to provide for a Book-Entry System or similar method for the registration and transfer of the Warrants.

(vii) During a period in which the Book-Entry System is in effect for the Warrants in accordance herewith, the provisions of this Ordinance and such Warrants shall be construed in accordance with the Letter of Representations and to give full effect to such Book-Entry System.

(viii) The Beneficial Owners of the Warrants, by their acquisition of any beneficial interest in a Warrant or Warrants, and the Securities Depository, the Securities Depository Nominee, and all Direct Participants and all Indirect Participants, severally agree that the Issuer and the Paying Agent shall not have any responsibility or obligation to any Direct Participant or any Indirect Participant or any Beneficial Owner with respect to (1) the accuracy of any records maintained by the Securities Depository or any Direct Participant or any Indirect Participant; (2) the payment by the Securities Depository or any Direct Participant or any Indirect Participant of any amount due to any Beneficial Owner in respect of the principal of, premium (if any) and interest on the Warrants; (3) the delivery or timeliness of delivery by the Securities Depository or any Direct Participant or any Indirect Participant of any notice due to any Beneficial Owner which is required or permitted under the terms of the Ordinance to be given to Beneficial Owners; or (4) any consent given or other action taken by the Securities Depository, or the Securities Depository Nominee, as owner.

(i) The Warrants may be issued in certificated form, and not pursuant to a Book Entry System, in accordance with the provisions hereof.

(ii) The Securities Depository may determine to discontinue the Book-Entry System with respect to the Warrants at any time upon notice to the Issuer and the Paying Agent and upon discharge of its responsibilities with respect thereto under applicable law. Upon such notice and compliance with law the Book-Entry System for such Warrants will be discontinued unless a successor securities depository is appointed by the Issuer.

(iii) In the event the Warrants are issued in certificated form and not pursuant to a Book-Entry System or the Book-Entry System for the Warrants is discontinued, Warrants in certificated form in Authorized Denominations will be physically distributed to the Beneficial Owners thereof and such Warrants will be registered in the names of the owners thereof on the registration books of the Paying Agent pertaining thereto, and the Paying Agent will make payments of principal of, premium (if any) and interest on such Warrants to the registered owners thereof as provided in the Warrants and this ordinance and the following provisions with respect to registration, transfer and exchange of such Warrants by the registered owners thereof shall apply:

(1) Each of the Warrants may be transferred by the Holder thereof or his duly authorized attorney, only on the Warrant Register upon surrender of such Warrant to the Warrant Registrar for cancellation. Upon surrender for transfer of any Warrant, the Issuer shall execute, and the Paying Agent shall authenticate, register and deliver, in the name of the designated transferee or transferees, one or more new Warrants of any Authorized Denominations and in a principal amount equal to the unpaid or unredeemed portion of the principal of the Warrant so presented.

(2) At the option of the Holder, Warrants may be exchanged for other Warrants of the same series, of any Authorized Denomination and of a like aggregate principal amount, upon surrender of the Warrants to be exchanged at a designated corporate office of the Warrant Registrar. Whenever any Warrants are so surrendered for exchange, the Issuer shall execute, and the Paying Agent shall authenticate, register and deliver, the Warrants which the Holder making the exchange is entitled to receive.

(3) All Warrants surrendered upon any exchange or transfer provided for in this Ordinance shall be canceled.

(4) All Warrants issued upon any transfer or exchange of Warrants shall be the valid obligations of the Issuer and be entitled to the same security and benefits under this Ordinance as the Warrants surrendered upon such transfer or exchange.

(5) Every Warrant presented or surrendered for transfer or exchange shall be duly endorsed or be accompanied by a written instrument of transfer in form satisfactory to the Issuer and the Warrant Registrar duly executed by the Holder thereof or his attorney duly authorized in writing.

(6) The Warrant Registrar shall not be required to transfer or exchange any Warrant during the period between the Record Date and the then next succeeding interest payment date; and, in the event that any Warrant (or any part thereof) is duly called for redemption, the Warrant Registrar shall not be required to transfer or exchange any such Warrant during the period of forty-five (45) days next preceding the date fixed for such redemption.

If on any principal or interest payment date the amount on deposit in the Warrant Fund is insufficient to pay the principal of, premium (if any) and interest on the Warrants due and payable on such date, the Issuer will forthwith pay any such deficiency into the Warrant Fund.

Section 6.01 Covenants With Respect to Tax Exemption for Interest; Designation of Warrants Pursuant to Section 265 of the Code

(a) The Issuer agrees that the Warrants are being sold on the basis that the interest payable on the Warrants is excludable from gross income of the registered owners thereof for federal income taxation under Section 103 of the Code.

(b) The terms used in this Section in quotation marks shall have the definitions and meanings provided by the Code.

(c) The Issuer hereby covenants and agrees with the registered owners from time to time of the Warrants that:

(1) the proceeds of the Warrants will be used solely for the governmental purposes for which the Warrants were issued;

(3) the payment of the principal of or interest on the Warrants is not (under the terms of the Warrants or any underlying arrangements) directly or indirectly (i) secured in any way by any interest in property used or to be used for a "private business use" or by payment in respect of such property or (ii) to be derived from payments (whether or not to the Issuer) in respect of property, or borrowed money, used or to be used for a "private business use;"

(4) the proceeds of the Warrants shall not be used or applied by it, and funds shall not be accumulated in the Warrant Fund in such a manner, and no investment thereof shall be made, as to cause the Warrants to be or become "arbitrage bonds," as that term is defined in Section 148 of the Code;

(5) the Issuer will comply with the requirements of Section 148(f) of the Code with respect to any required rebate to the United States; and

(6) the Issuer will make no use of the proceeds of the Warrants that would cause the Warrants to be "federally guaranteed" under Section 149(b) of the Code and the payment of the principal of and interest on the Warrants shall not be (directly or indirectly) "federally guaranteed" (in whole or in part) as described in said Section, except as otherwise permitted in said Section.

(d) The Issuer hereby further covenants and agrees with the registered owners of the Warrants that, to the extent permitted by law, it will not take any action, or omit to take any action, with respect to the Warrants that would cause the interest on the Warrants not to be and remain excludable from gross income pursuant to the provisions of Section 103 of the Code.

(e) The Issuer has investigated and determined that the reasonably anticipated amount of tax-exempt obligations to be issued by it or its "subordinate entities" during the current calendar year will not equal

12.5 EDUCATIONAL ASSISTANCE PROGRAM

12.5.1. **Policy.** Recognizing the importance of continued education, the City of Opelika (City) has established an Educational Assistance Program to encourage employees to pursue course(s), which will benefit them as well as the City. The City will refund a portion of the costs incurred by a classified employee who satisfactorily completes pre-approved courses, segments of course work and terms of study. The employee must sign an agreement promising to reimburse the City for all educational costs spent for training if the employee leaves employment within the period of time as specified on the repayment agreement. The maximum amount of time an employee is expected to agree to work after completion of courses is three (3) years. If the City has any trade out agreements with schools and/or colleges, the employee will be allowed to take courses at those locations exempt from the refund procedures. The employee will however be required to reimburse the City the amount of any classes taken whereby the employee does not make a "C" or higher.

12.5.2. **Short Courses, Seminars, Workshops – City Selected.** The City will pay the full costs of short courses, seminars, workshops, meetings, etc. when an employee is required to attend specific education and training for the benefit of the City. This includes tuition, materials, transportation, lodging, and meals if such training is approved in advance by the department head.

NOTE: Due to the cost of certain City Selected Workshops, employees may be required to sign a repayment agreement prior to being approved to attend.

12.5.3**. Eligibility**. All Classified Service Employees are eligible to participate.

12.5.4**. Approval of Course(s) Voluntarily Taken and Claims Procedure.** To be eligible for Educational Assistance, employees must gain course approval in advance from their department head(s), the Human Resources Director, and the Mayor. The application form is provided through the Human Resources Department. The application form must be completed and signed by the appropriate supervisors through the chain of command for the employee's department. The Human Resources Department will assist in the proper routing for those approving signatures. If the request is denied at any step in the process, the employee will receive a written reason for the denial by copy of the form. The Mayor, in coordination with the Human

Resources Director, shall have the discretion and authority to control and manage the operation and administration of the Educational Assistance Program, including the authority to make and enforce rules and regulations for the efficient administration of the Plan, to interpret the Plan, to approve or disapprove request for tuition refund, and to respond to all questions concerning the Plan. Advance approval is required whether the employee intends to take one course, approved segments of courses, or terms of study leading to a degree, or several courses at a time. This applies to extension courses, correspondence courses, and segments of courses leading to degrees at technical schools, colleges, universities or special trade schools. Segments of courses leading to degrees require approval before each term of study. The decision of the Mayor shall be final and binding. However, if approval is denied by the employee's Department Head, the employee has the right to seek review by the Mayor upon a written request filed within 15 days of the denial.

12.5.5. **Courses Generally Covered By The Program**. Only courses or course work which are mutually beneficial to the employee and the City are eligible for tuition refund. Courses or segments, which are part of a degree program at an accredited college or university, may also be approved when the segment satisfies the requirements of this Educational Assistance Program.

12.5.6. **Refund Procedures**. Upon satisfactorily completing an approved course(s) or approved segment, the following grade/percentage schedule will be followed: ("C" = 75%, "B" = 85%, "A" = 100%). Example: Cost of course = $100.00, grade received = "B", amount refunded = $85.00. The employee will be refunded amounts of tuition, registration, lab fees, shop fees, and student activity fees (where required), upon remaining employed as an active employee for a minimum of thirty calendar days after completion of the course or approved segment. These refunds will be made subject to the employee signing a repayment

12.5.7. **Proof For Payment**. After an employee has successfully completed a course(s) or approved segment, he/she must submit to the Human Resources Department an itemized statement of the total fees paid in conjunction with the course(s), segment of course work, or terms of study, and must also submit a copy of the official transcript, grade notification, or certificate of completion as evidence of meeting the tuition refund requirement. A refund check will be issued in

the pay period following completion of a thirty (30) day qualification period of continued active employment.

12.5.8. **Tax Liability.** Tax laws may delegate that some monies refunded to employees for educational expenses may be taxable. Generally excluded from taxation are refunds for refresher courses or courses dealing with current developments in the employee's field. Refunds of expenses for education resulting in a technical degree or four (4) year degree are almost always taxable to the employee. If monies are taxable, the taxable refund amount will be properly shown on the employee's annual W-2 form.

12.5.9. **Repayment.** If an employee is terminated or voluntarily leaves the City during the time period in which an agreement has been the employee will repay the City a pro-rated share of the amount refunded to him/her by withholding from his/her final pay check pursuant to the written repayment agreement signed by the employee as part of the application process. The employee will repay the City a pro-rated share of the amount refunded. The cost of transportation, meals, equipment, and/or lodging is not refundable. Employees must use outside benefits available to them, if any, prior to being repaid by the City, i.e. GI Bill.

12.5.10. **Funding**. There will be a special fund created for this purpose and amounts approved will be paid from this special fund each fiscal year. The City Council will establish an amount each year based upon available funds. When this amount is exhausted, on a first come first served basis, no further funds will be paid for this purpose during that fiscal year without approval of the City Council. If during the fiscal year funds are depleted and there are employees wishing to take advantage of the program, a waiting list will be established. When funds are made available, employees on the waiting list will be contacted to ascertain if they are still interested in educational assistance before new employees are allowed to apply for assistance. This program shall not be deemed to create or constitute a contract between the City of Opelika and any employee. The City Council of the City of Opelika may amend or terminate this program at any time by duly adopted ordinance.
