8. Citizen Communications

(Limit comments to five minutes or less)

Mattie Clark thanked the Mayor and City Council for supporting the National Night Out for the last nine years. She is stepping down as the leader of this event but, will still be helping. She also said the bushes at Randolph and Fruitland need to be cut back so you don't have to pull out into the street to see if a car is coming. President Smith asked Joey Motley to handle this request.

Trip Leonard said he lives on Morris Avenue and does not want a 3rd lane added to Morris Avenue. I have videos of all the logging trucks on Morris Avenue. Improving Morris Avenue

will just increase the number of logging trucks. I have talked to Mayor Fuller about my concerns. I will get with Mr. Canon to set meeting date(s) so this can be fully discussed. I am totally against improving Morris Avenue and ask the City to consider other options.

Sharon Freeman asked if the grant has anything that specifically deals with Morris Avenue? The grant should not be written to have anything to do with Morris Avenue.

Diane Green said she will be contacting Senator Shelby and ask him to not approve the grant.

Jammie Fourhman said I don't think anyone knows how much speeding is happening on Morris Avenue. I have bought several mail boxes over the years because of being hit. I chose to make Opelika is my home and I hope you don't make me regret that decision.

Helen Frick read a portion of her written remarks. Morris Avenue is a great short cut for trucks. Adding bike paths would not be safe because of the traffic. There are so many citizens here tonight because we are concerned with the proposed changes to Morris Avenue that could make it more dangerous. Please don't allow Morris Avenue to become a truck route.

President Smith thanked the citizens for their input and assured them that no final decisions have been made about Morris Avenue. We are all Opelika citizens and will not do anything to harm the City. Your message has been received loud and clear. There will be public hearings in the future should the City be awarded the Federal grant.

Hi Andre,

It's nice to meet you. I will get with Tiffany on Monday to discuss what I can do on my end to get this process started. I will be in touch with you early next week to let you know what we need to do.

Thank you for your patience with me while I am in the learning phase.

Tiffany,

Thank you for your work this year in the downtown Opelika area. My wife and I have 4 children, and I understand how valuable our time is with our family. I pray blessings upon you and your family. Thank you also for your efforts in helping us start the process of reserving the Courthouse Square.

And Dana, thanks for stepping up to help continue the progress of Main Street.

Below is our formal proposal. Thanks!

The I Run Opelika Organization is holding its 2nd I Run Opelika Health Expo and 5k Run/Walk. We are grateful for the support of the City Council, Opelika Main Street, the Opelika Police Department, and other city entities that helped make last year a success. This year our event will be held on August 18th, at the Courthouse Square. We would like to have barricades where South 9th Street intersects with Avenue A and Avenue B if possible. I have included a map of the route that we are running. We will start registering participants that have not already pre-registered at 0630 on that morning. Our run/walk will begin at 0800 and will continue until the last person crosses the line approximately 0930. However, the event will last until 11:00am to include cleanup. We do not plan on putting out any signage until the morning of the event. I Run Opelika is a dual purposed non-profit organization. We focus on youth empowerment as well as health and wellness.

This event focuses on three main areas:

1. To help bring awareness to health and wellness by holding a Health Expo, a 5k Run/Walk, a 1 Mile Walk, and other health related activities.
2. To showcase our beautiful city, especially our railroad roots. Last year we had participants from 5 different states.
3. To not only raise funds and support for our organization, but also Cornerstone of East Alabama Medical Center.

I have included a map of our course, as well as our information packet. Please let me know if you have any questions.

Dear Mr Shuman,
 thanks for taking the time to speak with me earlier. As I was telling you, our Main Street Director, Dana Gafford, asked me to submit a road closure request to you for consideration. This would be a concert to be held on 1st Avenue between 7th and 8th Streets during the hours of 4PM - 11PM on Saturday, August 25th although the streets would need to be blocked after 5PM on Friday, August 24th to erect the staging area. We realize this is less advance notice than is normally preferred but the band, St. Paul and the Broken Bones, just provided the member (Richard Patton/Cottonseed Studios) with the opportunity to add the date to their schedule. Thanks for taking the time to consider this request and let us know if you have any questions or need anything else from us.

thanks
 Dana Gafford

The hunting activities proposed for this property include stand and stalk hunting with a shotgun or rifle. No dogs will be used to hunt. We plan to engage in skeet, trap shooting and archery for recreational purposes only. We will abide by the hunting regulations enacted and enforced by the Alabama Department of Conservation and Natural Resources and the Alabama Wildlife & Freshwater Fisheries. These regulations include dates and bag limits for the hunting of squirrel (9/16-3/4), rabbit (9/16-3/4), and quail (11/4-2/28). We will also hunt raccoon, opossum, coyote, fox, beaver and feral swine, all of which have no closed season. This permit would be for "family only" and our guests. At this time, we do not plan to lease the property.

RESOLUTION NO. 181-18

Approve PY2018 CDBG Action Plan.

The HUD allocation for PY2018 will increase by approximately 13% to \$256,532. You will notice that Twin Cedars Child Advocacy Center will not be funded for PY2018. This is because they did not submit an application for funding. Therefore, the funds that would usually be allocations to TCCAC have been moved to the Utility Assistance program. The Utility Assistance program funds are generally used up in full within the first 3-4 months of being allocated, which shows the great demand and need within our community.

RESOLUTION No. _____

WHEREAS, the Housing and Community Development Act of 1974, as amended, requires that the City prepare and submit to HUD each year an Annual Action Plan which identifies and describes activities which the City intends to undertake with Community Development Block Grant (CDBG) funds; and

WHEREAS, the City's Five-Year Consolidated Plan (2015-2019) identifies the community needs which have been identified with citizen input and prioritized by the Planning Department with advice from stakeholders; and

WHEREAS, the City's Annual Action Plan for the 2018 Program Year identifies the projects and programs to which have been selected by the City Council to be undertaken with said Program Year's funding; and

WHEREAS, a summary list of the projects and programs of said proposed Annual Action Plan was published in the Opelika Auburn News in order to give citizens an opportunity to comment and public hearings were programmed for May 31, 2018 and July 9, 2018; and

WHEREAS, certifications and grant agreements will need to be signed to submit the Action Plan and receive grant funds to implement the Action Plan;

NOW, THEREFORE BE IT RESOLVED by the City Council of the City of Opelika as follows:

1. That the City's PY2018 Annual Action Plan, attached hereto, under the Five-Year Consolidated Plan (2015-2019) is hereby adopted; and
2. That Gary Fuller, in his capacity as Mayor, is hereby authorized to execute all grant agreements, certifications, sub-recipient agreements, and other documents required in relation to the submission and implementation of said Plan for the City of Opelika to the U.S. Department of Housing and Urban Development (HUD).

I have attached to this certification a description of the sources and amounts of such supplemental funds.

I further certify that the local government will comply with:

11. The requirements of 24 *CFR* 576.21(a)(4) providing that the funding of homeless prevention activities for families that have received eviction notices or notices of termination of utility services will meet the requirements that: (A) the inability of the family to make the required payments must be the result of a sudden reduction in income; (B) the assistance must be necessary to avoid eviction of the family or termination of the services to the family; (C) there must be a reasonable prospect that the family will be able to resume payments within a reasonable period of time; and (D) the assistance must not supplant funding for preexisting homeless prevention activities from any other source.

Instructions Concerning Lobbying and Drug-Free Workplace Requirements

Lobbying Certification

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure.

Drug-Free Workplace Certification

1. By signing and/or submitting this application or grant agreement, the grantee is providing the certification.
2. The certification is a material representation of fact upon which reliance is placed when the agency awards the grant. If it is later determined that the grantee knowingly rendered a false certification, or otherwise violates the requirements of the Drug-Free Workplace Act, HUD, in addition to any other remedies available to the Federal Government, may take action authorized under the Drug-Free Workplace Act.
3. Workplaces under grants, for grantees other than individuals, need not be identified on the certification. If known, they may be identified in the grant application. If the grantee does not identify the workplaces at the time of application, or upon award, if there is no application, the grantee must keep the identity of the workplace(s) on file in its office and make the information available for Federal inspection. Failure to identify all known workplaces constitutes a violation of the grantee's drug-free workplace requirements.
4. Workplace identifications must include the actual address of buildings (or parts of buildings) or other sites where work under the grant takes place. Categorical descriptions may be used (e.g., all vehicles of a mass transit authority or State highway department while in operation, State employees in each local unemployment office, performers in concert halls or radio stations).
5. If the workplace identified to the agency changes during the performance of the grant, the grantee shall inform the agency of the change(s), if it previously identified the workplaces in question (see paragraph three).
6. The grantee may insert in the space provided below the site(s) for the performance of work done in connection with the specific grant: Place of Performance (Street address, city, county, state, zip code) Check if there are workplaces on file that are not identified here. The certification with regard to the drug-free workplace is required by 24 CFR part 21.

controlled substance; "Employee" means the employee of a grantee directly engaged in the performance of work under a grant, including:

- b. all "indirect charge" employees unless their impact or involvement is insignificant to the performance of the grant; and

2. Summarize the objectives and outcomes identified in the Plan

This could be a restatement of items or a table listed elsewhere in the plan or a reference to another location. It may also contain any essential items from the housing and homeless needs assessment, the housing market analysis or the strategic plan.

Five goals were established for our five-year consolidated planning period to be addressed annually. They are:

- Goal 1:** Provide decent and affordable housing and supportive services for LMI families
- Goal 2:** Provide decent and affordable housing and supportive services for populations with a disability and/or elderly
- Goal 3:** Provide support for non-profit public services
- Goal 4:** Improve public facilities and/or infrastructure
- Goal 5:** Eliminate slums and blight

Goals 1, 2, and 5 will be accomplished through the city's Emergency Home Repair program, the Homeownership Loan program, and through the Inspections Department with demolition of neglected properties. The Emergency Home Repair Program provides home repairs to LMI individuals and families, which include those with a disability and/or elderly. Our goal is to assist 15 homeowners with repairs. The Homeownership Loan Program assists LMI individuals and families with down payment and closing cost expenses so that they can purchase a home. This allows a first time home buyer with good credit but limited savings to afford home ownership. Our goal is to assist 5 buyers with a home purchase.

Goal 3 will be accomplished by supporting the East Alabama Food Bank's Community Market. The Community Market is a grocery store style market for LMI that are food deprived. Support will also be provided for Lee Russell Council of Government Utility Assistance program. This program provides assistance with utility cost for LMI at a time that they cannot afford to pay for an electrical, water, or gas

bill. A portion of the funds provided for utility assistance will be dedicated to patients with HIV/AIDS and will be referred by Unity Wellness Center for assistance.

3. Evaluation of past performance

This is an evaluation of past performance that helped lead the grantee to choose its goals or projects.

The success of our Emergency Home Repair program and the number of people we are able to serve each year has made it impossible NOT to continue this activity each and every year. To date the City of Opelika has assisted eleven (11) home owners with home repairs. Half of our applicants were senior citizens. Many seniors are living on a very limited income that simply cannot afford to do the repairs that are needed on their homes. They must choose between eating, medical expenses, or home repairs. Home repairs are a last priority. The City of Opelika will continue to concentrate on improving the living conditions and providing affordable housing for our low-moderate income citizens.

The City of Opelika has closed on two (2) Home Ownership Loans and has five (5) pending that will close prior to the end of this program year making this a very successful year.

Main Street has had two (2) facade renovations in the Historic Downtown Business District which is an economic driver bringing continued jobs and tax revenue. The Cotton District block of 1st Ave is currently under revitalization and has three new businesses (brewery, vinyl albums, coffee roaster) in the works that Main Street expects to be assisting with facade grants along with a new bakery on S. 8th Street.

Our most recently conducted annual timeliness report pulled on June 25, 2018 indicated that the city had a .98 times its current grant amount in the Line of Credit. This is well below the threshold of 1.5 times the current grant amount.

4. Summary of Citizen Participation Process and consultation process

Summary from citizen participation section of plan.

As the grantee for CDBG, the City conducted a consolidated citizen participation process, which combined public hearings and agency consultation meetings. Public hearings were held on May31, 2018 and July 9, 2018. Notices were run in the Opelika Observer and/or Opelika-Auburn newspaper and posted at City Hall, Public Works, Cooper Memorial Library, and the SportsPlex. A copy of publication is attached. Also, Staff met with City Councilwoman of Ward 2 and a few members of her ward on June 26, 2018. Staff is very receptive to the thoughts and desires of our citizens and their needs and open to all suggestions.

5. Summary of public comments

This could be a brief narrative summary or reference an attached document from the Citizen Participation section of the Con Plan.

Citizen participation is a critical component of the CDBG program with regard to determining community needs, goals, and priorities. All citizen participation activities were implemented in compliance with the City's approved Citizen Participation (CP) Plan, including advanced notice of public hearings and two public hearings. Efforts made to broaden citizen participation included setting public hearings at times and locations that were convenient to the public, posting at the public library, City Hall, Public Works building, and parks and recreation SportsPlex.

Advertised where two public hearings in preparation of the Action Plan and Ward 2 City Council Member asked for a meeting:

Public Hearing: May31, 2018

There was only one person in attendance at this meeting. Reverend Jones expressed the need for more affordable housing, both for rent and to purchase. He also discussed with Staff the efforts being made by the MinistryAlliance to begin a hotel voucher program for homeless assistance. He will provide more information as they work out the details.

Ward 2 City Council Member: June 26, 2018

City Councilwoman Tiffany Pitts along with four community members of Ward 2 meet with Staff to discuss the CDBG program, how it works, and activities that have been previously funded. The group

expressed their desire to see more funding for early childhood education and preparation for entering school.

Public Hearing: July 9, 2018

There were five people in attendance at this meeting including two subrecipient applicants, City Councilwoman Ms. Pitts, Mayor Gary Fuller, and one citizen. Questions were asked about the planning and budgeting processes and there was discussion about the need for educational programs for our preschool and after schoolers.

AP-10 Consultation – 91.100, 91.200(b), 91.215(l)

1. Introduction

The City has used multiple strategies to enhance coordination between agencies, including the allocation of General Fund dollars and Federal grant dollars (CDBG) to support the provision of services within the covered jurisdiction, as well ongoing communication and consultation with housing and non-housing service providers, public housing authorities, other local jurisdictions, and public agencies. In CDBG, steps have been taken to improve the working relationship between the City and neighboring city, Auburn, for collaboration and technical support.

Several service providers are currently funded under the City's Operating Budget using General Funds, as well as the CDBG program using federal funds. The City intends to continue to fund agencies engaged in public services within program limits.

Provide a concise summary of the jurisdiction's activities to enhance coordination between public and assisted housing providers and private and governmental health, mental health and service agencies (91.215(l))

See above.

Describe coordination with the Continuum of Care and efforts to address the needs of homeless persons (particularly chronically homeless individuals and families, families with children, veterans, and unaccompanied youth) and persons at risk of homelessness.

The City actively participates and communicates with the Alabama Rural Coalition for the Homeless (ARCH), the regional Homeless Continuum of Care (CoC) for Lee County and its surrounding areas. Efforts to address the needs of the homeless include participation in CoC meetings and the allocation of CDBG funding under the 15% public services cap to organizations meeting the housing and supportive services needs of homeless persons.

Describe consultation with the Continuum(s) of Care that serves the jurisdiction's area in determining how to allocate ESG funds, develop performance standards for and evaluate outcomes of projects and activities assisted by ESG funds, and develop funding, policies and procedures for the operation and administration of HMIS

The City of Opelika does not receive ESG funding.

AP-12 Participation – 91.105, 91.200(c)

1. Summary of citizen participation process/Efforts made to broaden citizen participation Summarize citizen participation process and how it impacted goal-setting

Citizen participation is a critical component of the CDBG program with regard to determining community needs, goals, and priorities. All citizen participation activities were implemented in compliance with the City's approved Citizen Participation (CP) Plan, including advanced notice of public hearings and two public hearings. Efforts made to broaden citizen participation included setting public hearings at times and locations that were convenient to the public, posting all process information on the City of Opelika's publicly accessible website, public library, City Hall, and Public Works building.

	Goal Description	The City of Opelika has adopted the Carver-Jeter Revitalization Plan. This is a comprehensive plan and visionary process initiated by the city for the purposes of better connecting the Carver and Jeter neighborhoods to the greater city of Opelika and for establishing a compelling vision for the future of these neighborhoods by developing a strategic plan for land use and zoning, transportation, open spaces and environment, urban design, historic resources, public services, housing, and economic development. The Carver neighborhood is located in Census Tract 414 and the Jeter neighborhood is located in Census Tract 416. These two neighborhoods are the highest in minority population and poverty in the city. Our five year plan is to improve the walkability with sidewalk and streetscape improvements; green space; street art; connectivity to the downtown business district, schools, and parks; community health center; bike paths; and much more.
5	Goal Name	Supportive Services
	Goal Description	Through Public Services such as Lee Russell Council of Governments Utility Assistance Program, Twin Cedars Child Advocacy Center, East Alabama Food Bank Community Market, and the Unity Wellness AIDS Outreach Center, the City of Opelika will make a difference in our community. Our low-mod individuals and families will be able to find assistance with their energy bills, food to eat, assistance with rent or mortgage, and counseling if a victim of abuse. We want to take care of our most needy.

Projects

AP-35 Projects – 91.220(d)

Introduction

Projects have been identified based on the needs of our community as follows:

Housing Needs:

CDBG funds will continue to be used to improve housing conditions through our *Emergency Home Repair Program*. The *Home Ownership Loan Program* will provide down payment and closing cost assistance to first time home buyer purchasing inside the city limits of Opelika.

Public Facilities:

Public facilities have been identified as a high priority in our Jeter-Carver Plan, which outlines areas of need within the City of Opelika's two designated target areas: Census tracts 414 and 416. Funds will be designated for sidewalk and lighting improvements and better crosswalks in both neighborhoods. Also, a bike trail will be introduced in the Jeter community.

Public Services:

Public Service support will always be needed to assist low-moderate income individuals and families. CDBG funds will be used in support of the following organizations:

- East Alabama Food Bank Community Market - meets the need of those with food insecurities.
- Lee Russell Council of Government Emergency Utility Assistance – provides once annually utility payment assistance citywide, including referrals from Unity Wellness Center for patients with HIV/AIDS.
- Twin Cedars Child Advocacy Center – did not submit an application for PY2018, therefore, will not be funded

Rehabilitation

The core of any successful downtown is one that is walkable, preserved, and unique with a strong evidence of pride in the community. Opelika is a strong example of a successful downtown. In order to continue helping our downtown to grow and prosper, CDBG funds are used to support the *Main Street Façade Grant Program*. This program provides 50% reimbursement, up to \$7,000, to downtown business owners who repair or renovate the exterior façades of their buildings. This is a great economic development tool that encourages new businesses to open and existing business to remain in our

downtown which in turn provides jobs and revenue for the city.

AP-50 Geographic Distribution – 91.220(f)

Description of the geographic areas of the entitlement (including areas of low-income and minority concentration) where assistance will be directed

The City of Opelika offers funding to citizens citywide. However, there is concentration on providing services in Census Tracts 414 and 416 which are our two highest concentration of minorities and poverty.

Rationale for the priorities for allocating investments geographically

Assistance is available to all citizens who are LMI and live within the city limits of Opelika. However, the Carver and Jeter neighborhoods are our two highest concentration of minorities and poverty. It is for this reason that most of our request for assistance come from those who live in these areas.

AP-60 Public Housing – 91.220(h)

Introduction

The City of Opelika will continue to work with the Opelika Housing Authority to address housing needs and encourage homeownership. The City of Opelika proposed a new zoning change for Public Housing that required mixed income development. However, this recommendation was not approved. The Planning Department still believes this is an excellent concept in new development and continues to seek a developer who will take on this type of project in Opelika.

Actions planned during the next year to address the needs to public housing

The Opelika Housing Authority has a new Director in place who is working hard to identify the strengths and weaknesses of its current housing stock and organization. The City of Opelika will be working with OHA to identify solutions to our public housing needs.

Actions to encourage public housing residents to become more involved in management and participate in homeownership

The Opelika Housing Authority is now posting quarterly Home Buyer Seminars held at local Goodwill center flyers where the City of Opelika teams up with the City of Auburn and goes over homeownership opportunities through down payment and closing cost assistance available under CDBG, housing counseling, and Fair Housing awareness.

If the PHA is designated as troubled, describe the manner in which financial assistance will be provided or other assistance

AP-65 Homeless and Other Special Needs Activities – 91.220(i)

Introduction

Efforts to help families avoid homelessness will include the allocation of CDBG funds through Utility Assistance, Emergency Home Repairs, and Home Ownership activities. In addition, the CoC has a policy developed with consultation from major stakeholders including mental health facilities, law enforcement, hospitals, the Department of Human Resources, community-based organizations, service providers, judges, prosecutors and governmental agencies. The policy defines the criteria for homelessness, lists the common causes of homelessness, contains recommendations, and details the level of commitment expected by service providers. In addition, the policy affirms that in no instance should any one agency or institution take the sole responsibility for the homeless, but that each should clearly demonstrate a willingness to participate with the CoC, the community, service providers and like-minded agencies in responding to and addressing these problems.

Describe the jurisdictions one-year goals and actions for reducing and ending homelessness including

Reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs

The City's primary goal for reducing and ending homelessness is its continued participation in the regional CoC for the coordination of care and services. Actions will include the continued allocation of funding to service agencies that are involved in providing assistance to the homeless and those at risk of becoming homeless. The City has allocated General Fund and CDBG dollars for this purpose.

Addressing the emergency shelter and transitional housing needs of homeless persons

The City does not provide direct support to homeless persons, but will serve the community through the continued provision of General and CDBG funds for services and programs that meet the needs of the homeless population, sheltered or unsheltered.

Helping homeless persons (especially chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living, including shortening the period of time that individuals and families experience homelessness, facilitating access for homeless individuals

and families to affordable housing units, and preventing individuals and families who were recently homeless from becoming homeless again

The need for transitional and permanent housing has been identified as a low priority need within the community. Referrals will be made to our regional CoC and Unity Wellness Center for care and services. CDBG funding also provides support to services providers who provide food assistance and basic supportive services.

Helping low-income individuals and families avoid becoming homeless, especially extremely low-income individuals and families and those who are: being discharged from publicly funded institutions and systems of care (such as health care facilities, mental health facilities, foster care and other youth facilities, and corrections programs and institutions); or, receiving assistance from public or private agencies that address housing, health, social services, employment, education, or youth needs.

The City of Opelika uses CDBG funding to provide supportive services such as utility and food assistance. Our Home Buyer Loan program assist with down payment and closing cost when purchasing affordable housing. Through a tight network of local service providers and assistance from our regional CoC and Unity Wellness Center, the likelihood that families will fall into homelessness again is greatly decreased.

AP-75 Barriers to affordable housing – 91.220(j)

Introduction:

The City of Opelika continues to look for developers for mixed income housing units to be built. We are also working with Auburn University Department of Urban Design at affordable housing options that have been built in other areas of Alabama that are not only affordable to build but are also very energy efficient.

Actions it planned to remove or ameliorate the negative effects of public policies that serve as barriers to affordable housing such as land use controls, tax policies affecting land, zoning ordinances, building codes, fees and charges, growth limitations, and policies affecting the return on residential investment

Current land use, tax policies, zoning, and building codes are not barriers to affordable housing. Our land use maps are a “working document” and are adjusted as needed to meet the needs of residential development. Our zoning regulations permit a variety of housing types, neighborhood configurations, and lot sizes. Planned efforts with regard to affordable housing include Emergency Home Repairs.

Discussion:

AP-85 Other Actions – 91.220(k)

Introduction:

The City of Opelika will continue to work through the Carver-Jeter Revitalization Plan along with the Casey Foundation and Community of Hope, Auburn University Mobile Studio, and Auburn University Urban Studio to address the needs of its low-moderate income citizens so that their lives are enriched in every possible way.

Actions planned to address obstacles to meeting underserved needs

Plans to meet underserved needs include the continued provision of funding for public service activities that focus on LMI families and continued participation in the regional CoC.

Actions planned to foster and maintain affordable housing

CDBG funding single family Emergency Home Repairs, Habitat for Humanity home, and first time home buyer Home Ownership Loans are available within the Opelika city limits.

Actions planned to reduce lead-based paint hazards

The City of Opelika will continue to make home owners living in homes built prior to 1978 aware of the potential of lead based paint and the hazards of lead based paint. However, due to limited funding the city has chosen not to undertake work on homes that risk the disturbance of lead based paint at this time.

Actions planned to reduce the number of poverty-level families

The City's primary effort to reduce the number of families in poverty will be to provide financial support to organizations which have a mission of assisting households in poverty. Funds have been allocated for public services which include East Alabama Food Bank Community Market, which provides a grocery

store style market for LMI to shop for food and household goods.

Actions planned to develop institutional structure

The City serves as the grantee and administrator of CDBG funding. The Community Development department is housed within the Planning department and has a dedicated staff member to manage the program. City personnel also provides support for administration of program including housing inspectors, engineering, public works, and accounting.

Actions planned to enhance coordination between public and private housing and social service agencies

The City serves as the grantee and administrator of CDBG funding. The Community Development department is housed within the Planning department and has a dedicated staff member to manage the program. City personnel also provides support for administration of program including housing

The 4th St approach is stop-controlled with access management issues. The intersection of 6th St and Columbus Pkwy is also three-legs and is somewhat skewed. The 6th Street approach is stop-controlled and has three islands to separate movements. The intersection of 7th St/McCoy St and Columbus Pkwy is signalized. The SB, EB, and WB approaches have a 3-lane typical section including a center turn lane. The south leg of the intersection has a 6-lane divided typical section. Proposed improvements include the installation of a roundabout at each intersection.

Highway Safety Improvement Program (HSIP) Project Application - Questions Form (10/2/2015)
 Add additional sheets as necessary

1. Please describe in detail the specific location of the proposed HSIP project. Please identify whether project relates to an INTERSECTION or a ROAD SEGMENT. Please attach at least ONE sketch or map of the project area and at least ONE labeled photo describing the project area.

The proposed project consists of Columbus Parkway's intersections with 4th Street, 6th Street, and 7th Street. All three intersections have been included as one project due to their relative close spacing and similar traffic operation and safety issues. The proposed project begins about 0.75 miles west of the I-85 southbound ramps at the intersection of Columbus Parkway and 4th Street (see attached aerial imagery).

2. Please describe in detail the identified safety problems at this location and the need for the proposed improvement(s).

A total of thirty-six (36) crashes have occurred over a 5-year period (2012-2016) at the three subject intersections with the intersection of Columbus Parkway and 6th Street experiencing the highest number of crashes at a total of nineteen (19) crashes. All but four (4) of the total crashes were intersection related with the majority of those being rear-end crashes (13) and angle crashes (12). Of the thirty-six (36) crashes, ten (10) occurred during 2016. Between five (5) and seven (7) crashes occurred during the remaining years. The intersections at 4th Street and 6th Street are 'T' intersections with skewed approaches to Columbus Parkway. There are access management issues at the intersection of 4th Street. There are several islands at the intersection of 6th Street which create some confusion for motorists. The intersection of 7th Street and Columbus Parkway is signalized and has 4-legs. The 7th Street leg is skewed. The southern leg (McCoy Street) has a different typical section than the other three legs. McCoy Street has a 6-lane divided typical section and the other three legs have a 3-lane typical section. Columbus Parkway maintains a 3-lane typical section including a center turn lane beyond 7th Street and 4th Street.

3. Please describe the proposed improvement action(s) or countermeasure(s) and document proposed improvements that do NOT have known crash reduction factors (CRFs), but are expected to reduce the risk of crashes.

This project proposes to install a roundabout series. At a 4-leg intersection thirty-two (32) conflict points exist. A single-lane roundabout only experiences eight (8) conflict points with zero of those conflicts including crossing vehicles. The type of crashes that occur within a roundabout are less severe since speeds are lower and the nature of crashes tend to be sideswipe instead of the angle and left turn crashes seen in standard, 4-leg intersections.

4. Please describe the other alternative solutions that were considered, implemented, or eliminated at this location.

There were no practical alternative solutions for these intersections other than leaving them as-is or converting them into a series of roundabouts. The existing four-leg intersection has an existing traffic signal. Due to the close proximity to this existing signal, it would not be practical to place another traffic signal at the 6th Street intersection that has a higher number of left turn conflicts.

5. Please describe how the project cost was calculated and how you can ensure the project can be completed within the proposed budget and schedule.

The project cost was calculated by estimating construction item quantity take offs from a preliminary sketch of the proposed roundabout intersections. These take offs were assigned a unit cost based on recent bid costs received by the City. In-house construction management and value engineering principles applied during the construction phase, along with a competitive bid process will ensure the cost will not exceed the estimated amount. The City will be able to cover any cost over the awarded grant amount as an overrun.

ORDINANCE NO. 012-18-ORD

Amend Text of Zoning Ordinance, Section 8.13 Townhouse Development Standards - 2nd Reading.

ORDINANCE NO. _____

AN ORDINANCE TO AMEND THE TEXT OF THE
ZONING ORDINANCE OF THE CITY OF OPELIKA
SPECIFICALLY TO AMEND SECTION 8.13 THEREOF

BE IT ORDAINED by the City Council (the “City Council”) of the City of Opelika, Alabama (the “City”) as follows:

Section 1. Amendment. That Section 8.13 of Ordinance 124-91 entitled “Zoning Ordinance of the City of Opelika, Alabama”, adopted on September 17, 1991, as amended, is further amended by the deletion of the entire language of said section and substitution of the following, so that hereinafter said Section 8.13 shall read, in its entirety, as follows:

Sec. 8.13 TOWNHOUSE DEVELOPMENT STANDARDS

The regulations as contained in this section shall be applied to developments involving townhouses. A development plan, satisfying all the requirements of this ordinance shall be submitted to, reviewed by, and approved by the Planning Commission. Information required by Section 8.16.

A. Site Plan and Design Criteria, General.

It is the intent of this ordinance that townhouses, in areas where they are or may be permitted.

1. May be appropriately intermingled with other types of housing; and
2. Shall not form, long unbroken lines of row housing, but shall be staggered, singularly or in pairs, not less than three feet (3') or more than twelve feet (12'); and

3. Shall constitute groupings making efficient, economical, comfortable and convenient use of land and open space and serving the public purposes of zoning by means alternative to conventional arrangements of yards and building areas.
4. Shall provide adequate common open space free of buildings, streets, driveways, or parking areas. The common open space shall be so designed and located that it is easily accessible to all occupants of the project and is usable for open space and recreational purposes. Moreover, the Planning Commission may require that an association of owners or tenants be created for the purpose of maintaining such open spaces. It shall be created in such a manner that owners of property shall automatically be members and shall be subject to assessments levied to maintain said open space for the purposes intended for as long as the existence of the development.

B. Site Plan and Design Criteria, Details.

In line with the general considerations above the following criteria shall be met.

1. **Maximum Units.** Not more than twelve (12) contiguous townhouses, nor fewer than two (2) shall be built in a row with approximately the same front line; however in no event shall the number of units exceed the density allowed in the zone where the townhouse unit is to be constructed.
2. **Minimum Width.** The area on which any townhouse unit is to be constructed shall be twenty (20) feet.
3. **Separation Requirements-interior or Project.** No portion of townhouse or accessory structure in or related to one (1) group of contiguous townhouses shall be closer than twenty (20) feet to any portion of a townhouse or accessory structure related to another group.
4. **Yards.** Front, sides and rear yards for the overall development or site shall not be less than those permitted on zoning lots for the district; Each townhouse shall have one (1) abutting yard, which may be in the required front, side or rear yard equal to the width of the townhouse and have an area not less than fifty (50%) percent of the first floor areas of the townhouse, private and reasonable secluded from view or from neighboring property. Such yard shall not be used for any accessory building.
5. **Access Strip.** Each group of contiguous townhomes shall have a five (5) foot access easement adjacent to the private yard that connects to the public or private street providing vehicular access.
6. **Group Parking Facilities.**
 - a) Insofar as practicable, off-street parking shall be grouped in bays, in the interior of the project areas. No off-street parking space shall be more than one hundred

(100) feet by the most direct pedestrian route, from a door of the dwelling unit it is intended to serve. Two (2) parking spaces shall be provided for each dwelling unit. Parking bays shall be separated from street paving by curb or by curbed island, in either case the curb shall be a minimum of four (4) inches in width; except in driveway turnouts that will be provided between street paving and parking bays. This arrangement shall be constructed to prevent backing out into street from parking area.

- b) Townhouse units that front open space, have individual garages/carports or are accessed by a rear alley may utilize alternative parking configurations as approved by the City of Opelika.
7. **Density.** The density of the development shall coincide with the “dwelling units per acre” requirement as specified in Section 7.3A. according to the appropriate zoning district.
 8. **Maintenance.** Provision for the maintenance of all common parking, open access and other spaces and areas shall be included in the plat restrictions of the property. Individual utility connections shall be provided to each townhouse dwelling unit.
 9. **Fire Lanes.** All townhouse buildings and developments shall comply with all building, fire, and life safety codes adopted by the City of Opelika at the time of permitting for that building and as administered by the building official or fire chief, or their respective representatives. This shall include among other criteria any requirements prescribed for fire lanes, fire-rated construction or building separation.
 10. **Design.** Townhouse developments should reflect the character and complement of the surrounding housing.
 - a) Townhouse developments and buildings shall address the street when placed on local streets or existing residential neighborhoods unless prohibited by the lot configuration, topographic issues or other design issues.
 - i. This shall include having the front façade of the building face the street.
 - ii. Any buildings located behind the front row of buildings may have different orientations.
 - iii. Corner lots are only required to address one street side, although blank or uninterrupted walls are discouraged and should be screened or landscaped when possible.
 - b) Townhouse developments located on arterial or collector streets may be oriented away from the street.
 - c) Any fences or walls constructed abutting a public street shall be consistent in material, height and depth along a group of contiguous townhouse units.

C. Design Criteria of Townhouses, Individual Owners.

In districts where townhouse buildings are permitted and townhouses are to be constructed for sale, each on its own lot, to individual owners:

1. **Minimum Requirements.** Townhouse developments shall be subject to the minimum requirements specified in the subdivision regulation; such townhouses shall be constructed in accordance with applicable provisions of all codes of the City with no more than twelve (12) units per building, nor fewer than two (2) in a row with approximately the same front line.
2. **Minimum Width.** The width of the lot on which any single townhouse is to be constructed shall be twenty (20) feet or greater at front lot line.
3. **Minimum Lot Area.** The minimum lot area per townhouse shall be no less than eighteen hundred (1,800) square feet. The minimum areas required shall be exclusive of any paved common parking areas or driveways. The minimum lot area may include any required buffers, individual parking, garages or carports, or rear access alleyways.
4. **Separation Requirements-interior of Projects.** No portion of a townhouse or accessory structure shall be closer than twenty (20) feet to any portion of a townhouse or accessory structure related to another group.
5. **Yards.**
 - a. On lots containing townhouse dwellings, fronting on a public way, there shall be a minimum front yard as required in each zone.
 - b. A ten (10) feet side yard shall be required at the end of each townhouse building for a total of twenty (20) feet between structures. Each townhouse shall have one abutting yard, which may be within the required front, side or rear yard, equal in width of the townhouse and have an area not less than fifty percent (50%) of the first floor area of the townhouse, private and reasonable secluded from view from streets or from neighboring property. Such yards shall not be used for any accessory buildings.
 - c. On corner lots facing or siding on a public street, the side yard minimum shall conform to side yard on street yard minimum requirements, satisfying the zone in which development is located.
6. **Access.** A townhouse development shall front on a public right-of-way. However, individual townhouse lots need not abut public streets. When such lots do not abut public streets, they shall abut private roads, parking lots or access easements.

- a. Any private road, parking aisle or access easement used for frontage requirements shall meet the minimum standards as designated in the City of Opelika Code of Ordinances, Chapter 26, Article V, Section 26-168.
- b. The City Engineer shall review and approve proposed access specifications to ensure that the proposed road way is adequate to handle the expected usage.
- c. The length and extent of private roads, driveways and parking aisles providing access to lots shall be minimized, and public streets shall be provided in larger subdivisions when substantial distances are involved. Individual lots shall be no more than 1,000 feet from a public street as measured along the private access road. The Planning Commission may waive this distance requirements if it is determined that the design will allow a better internal street network or in cases where topography limits connectivity.
- d. Any private road, parking aisle or access aisle used for frontage requirements or access shall be maintained in good repair and free of defect or deformations so that passability shall not be impaired.
- e. The City Engineer or other authorized representative shall be authorized to inspect private roads that provide a means of ingress or egress and may cause corrective action or abatement as described in City of Opelika Code of Ordinances, Chapter 26, Article V.

Section 2. Repeal of Conflicting Ordinances. Any ordinance or parts thereof in conflict with provisions of this Ordinance be and the same are hereby repealed.

Section 3. Effective Date. This Ordinance shall become effective upon its adoption, approval and publication as required by law.

Section 4. Publication. The City Clerk is directed to publish a synopsis of this Ordinance in a newspaper of general circulation in the City of Opelika, Lee County, Alabama pursuant to Section 11-45-8(b)(2), Code of Alabama, (1975) as amended.
