Mr. Allen stated the cost of the vehicle would be less than what the resolution states. 2. Ordinance 005-21-ORD Amend Zoning Ordinance & Map; Rezoning 38.4 Acres, Fox Run Ave & Douglas Street - 2nd Reading.

Ms. Norris asked if this re-zoning was changing from residential to industrial. Mr. Gunter and President Smith answered no it would be the other way around for a subdivision to go there. Mr. Mosley then explained further the re-zoning would be to a PUD (Planned Unit Development) taking all three zones to a Master Plan. Ms. Norris asked Mr. Mosley to explain the M2 and I1 designations. Mr. Mosley explained the M2 is industrial zoned property owned by the Opelika Industrial Development Authority, and the I1 zoned property is called institutional property owned by the city or state. Ms. Norris then asked if this was going to be sold to a developer and what the lot sizes would be. Mr. Mosley confirmed it would be sold to a developer to create single family homes, and then explained the proposed lot sizes would be equivalent to or larger than the lots in the adjacent existing neighborhood. President Smith explained this is the neighborhood you have to go through to get to the West Ridge ball fields. Ms. Norris then asked

if these would not be affordable houses with lot sizes that large. Mr. Mosley stated they would be market rate houses and would not be affordable for low to moderate income families. Mr. Gunter explained this is property already approved by the council to sell to the developer subject to the re-zoning. Ms. Norris then asked if the re-zoning was not approved then what would happen. Mr. Gunter answered the developer would not buy the property. Ms. Norris then stated this was concerning to her due to the city trying to move towards more affordable housing and this would not be doing that with other affordable housing already in the area. Ms. Norris then asked her fellow council members to take that into consideration when casting their votes. Mr. Mosley then stated he was sorry if he misspoke, but the development would be consistent with homes already in the area. Ms. Norris thanked Mr. Mosley for his clarification and stated she was still concerned about the lot sizes, and is especially worried about not enough homes being built for low to moderate income families. Ms. Norris closed by stating this is a prime piece of property that the city owns and it could be used for providing affordable housing to people that cannot afford quarter of a million dollar homes which there are plenty of already, and again asked the council to consider that when voting. President Smith asked Mr. Jones to call the roll. Mr. Jones began to call the roll, and Mr. Allen, instead of voting, asked a question. Ms. Norris then proceeded to answer Mr. Allen's question when President Smith asked for a time out and interrupted their discussion to ask them to take up the business at hand, due to the pending sale of the property already approved by council, and having a motion and a second to approve the re-zoning now. President Smith also added they should have a separate conversation about affordable housing at a different time. Ms. Norris asked if they were still in the middle of a discussion. President Smith answered no, he already asked for the roll to be called after Ms. Norris finished her discussion earlier. Ms. Norris then stated because President Smith allowed Mr. Allen to speak after calling for the roll, she should be allowed to speak again. President Smith again answered no, he already asked for the vote. Ms. Norris proceeded to continue her discussion over President Smith when Mr. Rauch asked for a point of order. Mr. Rauch made a point of order that Ms. Norris's current discussion was not germane to the agenda item at hand. Ms. Norris asked to be allowed to speak and again proceeded to answer Mr. Allen's original question when President Smith asked Mr. Jones to call the roll for a second time. Mr. Jones called the roll and the below vote was recorded.

5. Resolution 024-21 Approve Change to Organizational Chart of the Parks and Rec Department - HR.

Mr. Allen asked if there was anyone there to answer a question. Mr. Motley went to the podium to answer. Mr. Allen stated there are many more workers at all the other park facilities and only 2 permanent full time employees at Covington even though the city has spent over 2 million dollars to renovate Covington Rec Center recently. Mr. Allen asked why they are only asking for one more full time employee and not more, to maximize what Covington can do. Mr. Motley stated the request for this particular service worker is because this is a temporary employee that works forty hours a week and should really be a full time and not temporary. Mr. Motley also explained that the groundskeepers are based out of Denson but work all over, and Covington is just now opened back up and they would certainly not hesitate to staff Covington as needed including a full time employee that was moved from Covington over to the Sportsplex during the renovation. Mr. Allen then asked if it is possible to add two more full time employees and does it have to come to the council each time. Mr. Motley explained that his duty is to make sure all the parks and recreation facilities that have needs be fully staffed and this is the first one to be addressed, and also they may be able to move some people around to share some duties from things they found out from shutting down due to covid. Mr. Allen again stated he did not understand how Covington would be at it's best with only two full time employees. Mr. Motley gave some specific examples of why other facilities may need more full time employees and how things were restructured while Covington was closed, and this employee being added would work 40 hours a week every week of the year so they should be a full time employee with benefits to handle all of the Covington building service needs. Mr. Allen then asked if that is true, why does Covington have a temporary employee now that has been temporary for years and works forty hours a week. Mr. Motley asked Mr. Bailey, Director of Parks & Rec, who Mr. Allen was speaking of. Ms. Lipscomb, Assistant Director of Parks & Rec, answered who it was and why they are still temporary. Mr. Motley relayed that the temporary employee has been filling in for various positions and the permanent receptionist for Covington was moved to the Sportsplex during the remodel. Mr. Allen and Mr. Motley both agreed that if someone is working forty hours a week, they are needed, and they aren't seasonal, they should be a full time employee. Mr. Motley confirmed this full time position before the council is for someone else and not the temporary employee in question. Mr. Allen then asked if they need two, why are they only asking for one? Mr. Motley stated if they wanted them to withdraw this request and come back with everybody that's needed after an evaluation they would do that. Mr. Allen closed by stating

he did not want to do that because the one they are asking for tonight is needed, but they need to come back later and address additional full time employees for Covington.

7. Resolution 026-21 Grant Application to ADECA for Recreational Trails Program with Creekline Trails of Opelika.

Ms. Norris asked if the city had made a determination on how they are going to meet the matching funds, either in cash or in-kind services or a combination of both. Mayor Fuller stated it would be a combination including mainly in-kind services. Ms. Norris asked if they could examine it more before making a decision and asked if the amount of \$148,000 was correct. Mr. Gunter stated that amount was correct and from his discussions with Scott Parker the match would mostly be in-kind services but he didn't know for sure exactly how much. Ms. Norris asked if the resolution could be tabled until they could determine how the match would be paid for. Dr. Lofton stated he did not see a reason to table it due to it being too good of an opportunity to get the grant amount of \$400,000 now even if the local match all came out of budget. Dr. Lofton explained how there are a lot of agencies involved and it would not make sense to sit on this and not move forward to receive the grant regardless of where the local matching funds comes from. Ms. Norris disagreed and stated she believes the citizens want transparency, and unless this is an urgent item, she doesn't see why putting it off until the next council meeting and having all of the information should be an issue. Ms. Norris then stated if they are going to lose the ability to get the \$400,000 grant by not making a decision tonight, then she would understand that and asked if that is the case. Matt Mosley, Planning Director, stated he believed the deadline to submit the grant application would be March 3, 2021 which would be about the same time as the next council meeting. Mr. Gunter stated the fact sheet attached to the resolution states that a significant amount of the local share will be provided by in-kind contributions including the cost of in-house engineering services. Mr. Mosley then stated this will occur on city property as well. Ms. Norris confirmed with Mr. Gunter and Mr. Mosley that the city's engineering department will provide in-house engineering plans and services that will count towards the local share amount. Mr. Mosley answered yes and Mr. Gunter added all of the construction and inspections would be handled by the city in-house as well. Mr. Mosley confirmed the city would handle all the inspections and likely much of the construction in-house. Ms. Norris asked if Mr. Mosley could give her an approximate of how much each would cost. Mr. Mosley apologized for not having that available and that Mr. Parker, City Engineer, would be able to get that to her, but he had to leave the council meeting earlier. Ms. Norris closed by stating she would not want to hold up the opportunity for the city to receive the \$400,000 grant and she appreciated the information given, and that it has helped her to make an informed decision. President Smith stated he believed there was a least \$50,000 on the preliminary estimate that would be in-kind of the \$148,000 local match. Mr. Allen asked regardless of how much the city would have to pay in cash, the city would be in a position to do that. President Smith answered absolutely.
